

**REMARKS**

By Amendment And Response dated November 18, 2003, Applicant proposed to introduce new Figures 4 and 5 that incorporate the subject matter of claims 9 and 10. Formal drawings for Figures 4 and 5 were filed at that time. In the final Office Action (dated February 9, 2004), the Examiner found the formal drawings of Figures 4 and 5 to be acceptable. However, the Specification had not been amended to provide a brief description of Figures 4 and 5.

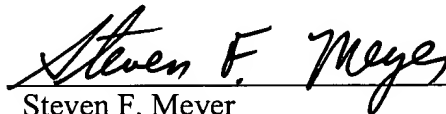

By Notice Of Drawing Inconsistency With Specification (dated August 5, 2004), the Examiner noted the lack of a Brief Description for Figures 4 and 5. By this Amendment, Applicant has amended the Specification to provide a Brief Description for Figures 4 and 5.

**CONCLUSION**

In light of the foregoing, Applicant respectfully submits that this allowed application is in condition for publication.

Respectfully submitted,  
MORGAN & FINNEGAN, L.L.P.
